### Story: Sunny's Summer Adventure

Once upon a time, in the town of Sunville, there lived a little boy named Sunny. He loved playing outside with his friends, but as the days got hotter, his mother reminded him, "Summer is here, and we need to take care of ourselves in the heat!" One day, Sunny and his friends planned a picnic in the park. Before he left, his mother packed a big bottle of water, some fresh fruits like watermelon and mangoes, and a hat. She also applied sunscreen on his face. "Why do I need all this, Mom?" Sunny asked. His mother smiled and said, "Summer is fun, but we must protect ourselves from the hot Sun. Drinking water keeps us cool, fresh fruits keep us healthy, and a hat and sunscreen protect our skin." At the park, the children played happily under the shady trees. They ate juicy watermelon and drank cool lemonade. But soon, Sunny noticed his friend Rohan looking tired and dizzy. "Are you okay, Rohan?" he asked. Rohan said, "I forgot to drink water, and now I feel very hot." Sunny quickly gave him some water and told him to sit under a tree. "You must drink lots of water in summer, or you'll feel weak," he said. After some time, dark clouds covered the sky, and a cool summer breeze started blowing. The children cheered as tiny raindrops fell. "Summer also brings us the first rain, which cools the Earth," said their teacher, who had come to take them back home. That day, Sunny learned many things about summer. He understood that:

- ❖ Summer gives us sweet fruits like mangoes and watermelons.
- ❖ We must drink lots of water to stay cool.
- ❖ Wearing light cotton clothes keeps us comfortable.
- ❖ Playing in the shade is better than playing in direct sunlight.
- ❖ Sunscreen and hats protect us from the strong sun.

**Moral of the Story:** Summer is a fun season, but we must take care of ourselves to enjoy it fully! The next day, Sunny made a chart at school with all the "Summer Safety Rules" to remind his friends. And from then on, they all enjoyed the summer season safely and happily!
